LETTER FROM THE DIRECTOR

2023 was a year of change for the Northvale Public Library. We went through a major renovation project and stayed open to the public the entire time. Our Patrons have been wonderful and very patient through the whole process. Construction is now complete and we have a new children's room, a dedicated programming space, and a back office.

During our time of construction, we held our programming outside on the front lawn, at the senior center during the evenings, and the children had take and make crafts to bring home. In September, the construction was complete and we began using our new space. The library is back to having a busy energy with patrons staying for programming, to work, to use the computers, and for children to hangout and study after school.

A big thank you goes out to our patrons for being patient with us during the construction and to the staff for all of their hard work through this big project.

I look forward to 2024 to bring the same energy as we have been seeing since the completion of the construction. I cannot wait for us to bring more events and people into the library in the new year!
